QUESTION 61 You need to recommend which task must be performed to meet the backup requirements. Which cmdlet should you recommend using? A. Export-CsConfiguration B. Backup-CsPool C. Restore-CsDatabase D. Export-CsUserData Answer: D

Explanation: <http://technet.microsoft.com/en-us/library/jj204897.aspx> QUESTION 62 Which cmdlet should you run to move the users to the planned Lync Server 2013 infrastructure? A. Move-CsManagementServer B. Move-CsLegacyUser C.

Move-ADObject D. Move-CsUser Answer: D Explanation: <http://technet.microsoft.com/en-us/library/gg398528.aspx>

Move-CsLegacyUser is to move users from Office Communication Server 2007 to Lync Server only, otherwise use Move-CsUser

QUESTION 63 You need to recommend changes to the existing SQL Server environment to support Lync Server 2013 during the coexistence period. What should you recommend? A. Upgrade to SQL Server 2008 R2 on the existing servers that have SQL Server deployed. B. Upgrade to SQL Server 2012 on the existing servers that have SQL Server deployed. C. Create a new SQL Server instance on the existing servers that have SQL Server deployed. D. Implement a new server that has SQL Server 2012

deployed. Answer: D Explanation: <http://technet.microsoft.com/en-us/library/gg425764.aspx> Case Study: 3 - Litware, Inc

(QUESTION 64 - QUESTION 74) Overview General Overview Litware, Inc., is an international manufacturing company that has 4,000 employees. The company has a sales department, a marketing department, a research department, and a human resources department. Litware has a partner company named Fabrikam, Inc. Fabrikam has an office in Paris. Fabrikam uses a XMPP-based instant messaging (IM) solution. Physical Locations Litware has seven offices located throughout North America and Europe. Litware has two data centers. The data centers are located in New York and London. All communications for the North American offices are routed through the New York data center. All communications for the European offices are routed through the London data center. The number of users in each office is shown in the following table.

The number of users in each office is shown in the following table.

Office location	Number of users
New York	1,500
Miami	50
Los Angeles	60
London	1,500
Frankfurt	50
Barcelona	75
Amsterdam	80

Existing Environment Active Directory Environment Litware has an Active Directory forest named litwareinc.com. The forest

contains a single domain. All domain controllers run Windows Server 2008 R2. Each office contains five domain controllers. Each office is configured as an Active Directory site. LyncServer EnvironmentLitware has a Lync Server 2010 infrastructure that contains two servers in the New York office. The servers are configured as shown in the following table.

Server name	Role
Lync2	Edge Server

The SIP domain is litwareinc.com.Litware has a Microsoft Exchange Server 2013 organization.Problem StatementsUsers in the London office report poor video quality during conferences.RequirementsBusiness GoalsLitware wants to minimize the costs associated with purchasing hardware and software.Planned ChangesLitware plans to migrate the Lync Server 2010 infrastructure to Lync Server 2013. The migration will have a coexistence period of six months. Litware plans to implement the following components as part of the planned migration:- Persistent Group Chat- The unified contact store- Enterprise Voice for all users- A central site in each data center- A branch site in each branch office- A Front End pool in each central site- Microsoft Lync Phone Edition devices- Pool pairingLitware plans to create a federation relationship with Fabrikam.Technical RequirementsLitware identifies the following technical requirements for the planned migration:- Users must be able to use all Lync Server features if a single server fails. - Users must be able to connect to the Lync Server infrastructure if a single central site fails.- Members of a group named Temp_Contractors must be prevented from using Microsoft Lync 2013 when they connect remotely.- Only users in the human resources department must be able to access and discover a persistent chat room named HRConfidential.Security RequirementsLitware plans to deploy remote access. Some users work remotely from their customers' offices, which have firewall restrictions. All of the remote users must be able to connect to the Lync Server infrastructure by using TCP port 443. QUESTION 64 Drag and Drop QuestionYou are planning the Lync Server 2013 migration. You need to identify which management tools must be used to achieve the following migration tasks during the coexistence period:- Move users from Lync Server 2010 to Lync Server 2013. - Add a server that has Lync Server 2013 deployed to the topology. - Remove a server that has Lync Server 2010 deployed from the topology.Which tools should you identify? To answer, drag the appropriate management tools to the correct migration task in the answer area. Each tool may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.

QUESTION 65Drag and Drop QuestionYou are evaluating the deployment of the Persistent Chat feature. You need to recommend which tasks must be performed to create HRConfidential. Which three actions should you recommend? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order.

QUESTION 66 Drag and Drop Question You need to recommend which Lync Server 2013 components must be deployed to support the planned changes. The solution must meet the technical requirements. Which components should you recommend? To answer, drag the appropriate components to the correct site in the answer area. Each component may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.

QUESTION 67 You need to recommend a remote access solution for each central site. The solution must meet the security requirements and the technical requirements. What are two possible recommendations that achieve the goal? (Each correct answer presents a complete solution. Choose two.)
 A. Deploy two Edge Servers that are load balanced by using DNS load balancing. Deploy a network address translation (NAT) solution. Assign one public IP address to each Edge Server service on each Edge Server.
 B. Deploy two Edge Servers that are load balanced by using a hardware load balancer. Assign one public IP address to each Edge Server service on each Edge Server. Assign three public IP addresses to the hardware load balancer.
 C. Deploy two Edge Servers that are load balanced by using a hardware load balancer. Deploy a network address translation (NAT) solution. Assign one public IP address to each Edge Server.
 D. Deploy two Edge Servers that are load balanced by using a hardware load balancer. Assign one public IP address to each Edge Server. Assign two public IP addresses to the hardware load balancer.
 Answer: AB

QUESTION 68 You need to plan for the implementation of the DHCP configurations for the Lync Phone Edition devices. Which three configurations should be applied to the Lync Phone Edition devices from DHCP? (Each correct answer presents part of the solution. Choose three.)
 A. The FQDN of the Lync Server pool registrar.
 B. The IP address of a time server.
 C. The URL of the certificate provisioning service of the Lync Server pool.
 D. The IP address of a Mediation Server.
 E. The SIP domain.
 Answer: ABC

QUESTION 69 You are evaluating a disaster recovery solution for the planned Front End pools. You need to recommend a solution for restoring access to the Central Management store if the Front End pool fails. Which cmdlet should you include in the recommendation?
 A. Invoke-CsManagementServerFailover
 B. Import-CsConfiguration
 C. Invoke-CsPoolFailover
 D. Move-CsManagementServer
 Answer: A

QUESTION 70 Hotspot Question You are evaluating the implementation of an Edge Server. You need to identify which ports that must be open on the firewall to support the planned federation relationship. Which port should you open between the Internet and the planned Edge Server? To answer, configure the appropriate protocol and port in the answer area.

Answer:

Answer Area

Protocol

Port
